# **CERTIFIED**

## **USED EQUIPMENT**

## **IMT Certified Used Equipment is reporting for duty**

Adding used equipment to your fleet can be an efficient, economical boost to your productivity. But how can you be sure it's a wise investment?

Make sure it's IMT Certified Used Equipment. We're the only company meeting the need for high-quality used equipment today, and every piece of our IMT Certified equipment has been reconditioned to provide outstanding value and performance.

## **HOW DO WE DO IT?**

We start with a 90-point inspection of the crane, service body, chassis, compressed air system, and more, then top it off with complete planned maintenance service.

If it can be checked, we check it. And if any part doesn't pass inspection, we fix or replace it.

## **CERTIFIED FOR YOUR PROTECTION**

When you purchase an IMT Certified vehicle and register the warranty online, you'll receive a copy of the 90-point checklist, a six-month limited warranty on the IMT equipment, and a one-month limited warranty on the chassis.

Then you'll be ready to put your reconditioned equipment to work.

If you have questions about IMT Certified Used Equipment, talk to your nearest distributor.
