GENIE SCISSOR LIFT GS-1930

- The solid steel deck platform has a slip-resistant surface.
- Heavy duty tubular steel guardrails maximize durability. Telescopic end rail can be raised to accommodate large loads.
- Lubrication-free, service-free pivot points.
- Built-in lanyard attachment points.
- The ergonomic Joystick Controller operates from the platform or the ground.
- Low noise level allows operation in quiet work environments.
- High angle steering provides excellent maneuverability.
- Swing-out battery box and power module allow easy access to componentry. Variable speed motor extends battery and motor life by using only the energy needed to do the required work. On-board troubleshooting diagnostics notify the operators of possible fault conditions.

Standard Features

- GS-1530 has 21 ft (6.5 m) working height and GS-1930 has 25 ft (7.8 m) working height
- 39 in (1 m) roll-out platform extension
