NEW CORMACH 6800 E ARTICULATING CRANE
STANDARD FEATURES

- 6,220 lifting capacity (49,200 ft lbs)
Max static moment at the turret pin: 49,200 ft lbs
Hydraulic boom length: 16' 1" (optional 27' 7" hydraulic boom length)
Boom length with manual extension: 33' 6" (optional)
Slew torque: 4,920 ft lbs
Pressure: 3,911 PSI
Flanged valve on the cylinder for safety
Telescopic cylinders with very long stroke for maximum hydraulic range of m. 8, 40 (6800 E-3)
Close section swivel post with maximum torsional rigidity
Rotation with engine and reduction gear, power, reliability, remarkable drive sensibility
Hydraulic brake
Flip up stabilizing cylinders
Highly resistant base roller bearing, outstanding motion precision, very little friction, no wear
3 point linkage as required by the leading truck producers
Pins in special steel
Bushes made in self-lubricating material
Compactness: hydraulic operated forward reach 8, 40 m. capacity
Shaped arm with closed section, max resistance to torsional stress, and light structure
Air oil filter
Telescopic boom with hexagonal section > resistance
Load condition indicator
Optional outriggers hydraulic extension with protected cylinders
